\$16,348,341 Lease/Maint costs

\$11,307,177 total savings over 25 years

Staff would like to look into option of self funding and paying back funds with interest instead of financing company, using funds that are currently invested in LAIF.

Projects costs are offset by energy savings created by the projects.

To move forward Council would need to enter into an agreement with Chevron and provide a \$25,000 deposit to Chevron to have them start the engineering and design of the projects.

Council gave direction for staff to come back with another study session before they move forward on project proposals. Want staff to bring a clear picture on what previous projects costs versus actual savings they have created.

B. Discussion and possible direction regarding current City Park Hours of Operation.

Discussion led by Chief Carlos Mestas and Captain Parker Sever.

Chief Mestas proposed to change hours of operation in Civic Park. Recommendation to change hours to prohibit loitering from 10PM to 5AM, to match the other parks, with the exception that the language would not prohibit entering, just prohibit staying. The park would remain a thoroughfare.

Captain Parker Sever also proposed to get more specific on the hours with the Parks and Recreation Director on some of the existing City Parks.

Council gave consensus to have Staff bring proposed Ordinance changes back for action.

C. Demonstration and instruction on the NovusAGENDA software.

Presentation made by City Clerk, Melonie Patrick. Demonstration of how to access the Agenda on the City website. Also demonstrated how to log into the Agenda software from the Council Member perspective and ran through the look of the agenda and where to enter comments and notes.

AVIGATION AND CLEARANCE EASEMENT

THIS AVIGATION AND CLEARANCE EASEMENT is made and entered into this 11 day of July, 2017, between Jose L. Cabrera ("Grantor") and the CITY OF HANFORD, a municipal corporation ("Grantee") (PRESIDENT) Gator Properties

RECITALS

A. Grantor is the owner or has a beneficial interest in certain real property in the City of Hanford, County of Kings, State of California and more particularly described in Exhibit "A", which is attached hereto and made a part hereof ("Real Property").

B. The Real Property is located approximately 1 1/4 miles from the Hanford Municipal Airport ("Airport"). Grantor desires to construct certain improvements upon the Real Property.

C. Grantee wishes to insure that the construction of any improvements upon the Real Property will not interfere with the use of the Airport, including, without limitation, aircraft passing over the Real Property on take-off from or landing at the Airport.

D. As a condition of approval to construct any improvements upon the Real Property, Grantor agrees to grant the Grantee the easement described herein.

NOW, THEREFORE, it is agreed as follows:

1. Grantor, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, does hereby grant to the Grantee, its successors and assigns, a perpetual and assignable easement and right-of-way over all of the Real Property.

2. This easement applies to the airspace above an imaginary plane over the Real Property ("Airspace"). The imaginary plane is described as follows:

The imaginary plane above the Real Property, as such plane is defined by Part 77 of the Federal Aviation Regulations, or any amendment, modification or replacement of Part 77 of the Federal Aviation Regulations, and consists of a plane; the elevation of said plane being based upon the Airport official runway end elevation of 242 feet Above Mean Sea Level (AMSL), as determined by Hanford Airport Layout Plan, the approximate dimensions of which said plane are described and shown on Exhibit "B", which is attached hereto and made a part hereof.

3. This easement and right-of-way includes, but is not limited to:

- (a) For the use and benefit of the public, an easement and continuing right to fly, or cause or permit the flight by any and all persons, or any aircraft, of any and all kinds now or hereafter known, in, through, across, or about any portion of the Airspace.

- (b) The easement and right to cause or create, or permit or allow to be caused or created within all space above the existing surface of the Real Property and any and all Airspace laterally adjacent to the Real Property, such noise, vibration, currents, dust, discomfort or inconvenience and other effects of air, illumination and fuel consumption as may be inherent in, or may arise or occur from or during the operation of aircraft or any and all kinds, now or hereafter known or used, for navigation of or flight in air.
- (c) A continuing right to clear and keep clear from the Airspace any obstructions, including, without limitation, portions or buildings, structures, or improvements of any kind, trees, vegetation or other objects, including the right to remove or demolish those portions of such buildings, structures, improvements, trees, vegetation or other things which extend into or above said Airspace, and the right to cut to the ground level and remove any trees or vegetation which extend into or above the Airspace.
- (d) The right to mark and light, or cause or require to be marked or lighted, as obstructions to air navigation, including, without limitation, any and all buildings, structures, or other improvements, trees, vegetation or other objects, which extend into or above the Airspace.
- (e) The right to regulate or prohibit the release into the air of any substance which would impair the visibility or otherwise interfere with the operations of aircraft such as, but not limited to, steam, dust, and smoke.
- (f) The right to regulate or prohibit light emissions, either direct, indirect or reflective, which might interfere with pilot vision or the operation of any aircraft.
- (g) The right to prohibit electrical emissions which would interfere with aircraft communication systems or aircraft navigational equipment.
- (h) The right of ingress to, passage within and over, and egress from the Real Property, for the purposes described in subparagraphs (c) through (g), inclusive, above at reasonable times.

4. For and behalf of itself, its successors and assigns, the Grantor hereby covenants with Grantee for the direct benefit of the Real Property constituting the Airport, that neither the Grantor, nor its successors in interest or assigns will construct, install, erect, place or grow in or upon the Real Property which constitutes an obstruction to air navigation, or which obstructs or interferes with the use of the easement and rights-of-way herein granted, nor will they permit to allow, any building, structure, improvement, tree, vegetation or other object to extend into or above the Airspace.

5. The easements and rights-of-way herein granted shall be deemed both appurtenant to and for the direct benefit of that Real Property which constitutes the Airport; and shall further be deemed in gross, being conveyed to the Grantee for the benefit of the Grantee and any and all members of the general public who may use said easement or right-of-way, in landing at, taking off from or operating such aircraft in or about the Airport, or in otherwise flying through said Airspace.

6. This grant of easement shall not operate to deprive the Grantor, its successors or assigns, of any rights, which it may from time to time have against any air carrier or private operator for negligent or unlawful operation of aircraft.

7. These covenants, agreements and rights identified herein run with the land and are binding upon the heirs, administrators, executors, successors and assigns of the Grantor, and, for the purpose of this instrument, the Real Property is the servant tenement and is the dominant tenement.

SUBJECT:

Grant of Non-Exclusive Easement on Library Property to Central Valley Independent Network (CVIN)

RECOMMENDATION:

The City Attorneys' Office recommends that the City Council approve the attached Grant of Non-Exclusive Easement.

BACKGROUND:

The City and the County jointly own the Hanford Library property and the County administers the operations there. The County has been working with Central Valley Independent Network (CVIN) on encroachment permits and easements and other agreements regarding the installation of a fiber network. CVIN is a grantee under the federal Broadband Technology Opportunities Program (BTOP). The BTOP program is designed to provide robust broadband infrastructures to unserved and underserved rural areas and to directly connect various primary anchor and client institutions to the fiber infrastructure network in the Central Valley, including the Library.

CVIN is working collaboratively with the Corporation for Education Network Initiatives in California (CENIC). They are installing and deploying a 1,371 mile fiber backbone network through 18 Central Valley communities. The network will consist of 720 newly constructed miles of fiber and the leasing of 164 miles of dark fiber. It will provide Internet backbone service to Amador, Calaveras, Colusa, El Dorado, Fresno, Kings, Kern, Mariposa, Merced, Madera, Nevada, Placer, San Joaquin, Stanislaus, Sutter, Tuolumne, Tulare and Yuba Counties. Additionally, their project will construct 12 new wireless nodes in order to deploy WiMax last-mile service to the rural portions of Fresno, Tulare, Kings, and Kern Counties. The Government Center encroachments will lead the fiber to Kings County Office of Education's tower on property leased from the County where CVIN will place a cabinet. This is considered the backbone of their network.

In order to implement the fiber network CVIN requires an Easement relative to the Library property sufficient to construct, install, own, manage, operate, maintain, repair, or replace from time-to-time an underground conduit and fiber cable for telecommunications facilities and all other appurtenant equipment for CVIN's multi-county transmission system.

FISCAL IMPACT:

None. The County will bear any and all costs associated herewith.

PROVIDED, this Grant of Non-Exclusive Easement (“Easement”) is subject to the following terms and conditions:

1. This Easement includes permission by Grantor for the temporary use by CVIN of such area as is reasonably necessary for the construction, installation and on-going maintenance of CVIN’s Facilities.
2. This Easement is subject to existing contracts, leases, licenses, easements, encumbrances, and claims which may affect said real property and the use of the word “Grant” herein shall not be construed as a covenant against the existence of any thereof. If at the time of installation of CVIN’s Facilities or thereafter there is a conflict with existing rights, then both parties hereto will cooperate in determining a new location for CVIN’s Facilities. Any costs associated with or expenses incurred in transferring CVIN’s Facilities to a new location will be borne solely by CVIN.
3. CVIN agrees that its Facilities shall be well and safely maintained by CVIN, at no cost to Grantor, at all times while this Grant of Easement is operative. CVIN shall maintain a “Call-Before-You-Dig” program for all required and related cable locations on Grantor’s land. Where appropriate, CVIN will maintain sign posts along the CVIN transmission system easement with the number of the local “Call-Before-You-Dig” organization and the “800” number for CVIN. Unless CVIN fails to respond to notices by the Grantor or by the local “Call-Before-You-Dig” program, any damage caused by the City’s gross negligence or intentional misconduct or by County, its contractors or related parties shall be repaired or replaced by CVIN as necessary at Grantor’s expense, and Grantor shall be responsible for actual damages; Grantor shall have no other responsibility with respect to any damage to CVIN’s facilities.
4. The following notice is required to be provided by Grantee to Grantor prior to entering the easement: 48 hours for normal business maintenance, reasonable notice if related to construction matters, and as soon as possible related to emergency or unscheduled service outage issues.
5. CVIN waives all claims against Grantor, its officers, agents, and employees, for loss or damage caused by, arising out of, or in any way connected with the exercise of this easement except as otherwise provided in this Easement. CVIN agrees to save harmless, indemnify, and defend Grantor, its officers, agents, and employees, from any and all loss, damage or liability which may be suffered or incurred by Grantor, its officers, agents, and employees or any member of the public caused by, arising out of, or in any way connected with CVIN’s Facilities or exercise by CVIN of the rights hereby granted, except those arising out of the gross negligence or intentional misconduct of City or the comparative negligence of County.
6. Grantor reserves the right to use said real property in any manner, provided such use does not unreasonably interfere with CVIN’s rights hereunder, which are subject to Paragraph 7 of this Easement.
7. Grantor reserves the right to require CVIN, at CVIN’s sole expense, to remove and relocate all improvements placed by CVIN upon said real property, for any reasons deemed necessary in the judgment of the Grantor. Within 75 days after Grantor’s written notice and demand for removal and relocation of the improvements, CVIN shall remove and relocate the improvements to a feasible location on Grantor’s property, as designated by Grantor, and Grantor shall furnish CVIN with an easement in such new location, on the same terms and conditions as herein stated, and CVIN thereupon shall reconvey to Grantor the easement herein granted. Grantor and CVIN will work cooperatively to transition to the new easement in a manner or timeframe which will not cause unreasonable break or disruption of service to CVIN’s customers using the improvements. If, at the end of the useful life of CVIN’s Facilities, CVIN

elects to forego replacement of the same, Grantor may require CVIN, at CVIN's sole cost, to remove CVIN's surface Facilities but CVIN may abandon in place any subsurface facilities.

8. In making any excavation on said property of Grantor, CVIN shall make the same in such manner as will cause the least injury to the surface of the ground around such excavation, and shall replace the earth so removed by it and restore the surface of the ground and any improvement thereon to as near the same condition as they were prior to such excavation as is practicable. Upon removal of CVIN's Facilities, CVIN will fill and compact the excavated area in a manner consistent with the City's then-current standards. CVIN shall obtain an encroachment permit from the City prior to conducting any activities, including, without limitation, excavation and installation of improvements, in a public right-of-way.

9. CVIN will provide as-built drawings to Grantor at the completion of construction and prior to putting CVIN's transmission system into service.

10. CVIN shall have access to electrical utilities as may be required to operate CVIN's Facilities at no cost to Grantor.

11. CVIN, by its signature hereto, acknowledges that a possessory interest tax may be levied under the provisions of Revenue and Taxation Code section 107 on CVIN's interest in the real property under the terms of this Easement, and CVIN hereby expressly agrees to pay such possessory interest tax, if any, except to the extent that CVIN may be exempt by law. CVIN further agrees it shall be liable for said taxes, if any.

12. For the duration of the Easement, CVIN will maintain the required insurance as set forth in Exhibit "C" attached hereto and incorporated by this reference. Insurance policies shall not be used to limit Grantee's liability or to limit the indemnification provisions and requirements of this Easement or act in any way to reduce the policy coverage and limits available from the insurer(s).

13. This Easement shall apply to and bind the assigns and successors of the parties hereto. Further, pursuant to the Broadband Technology Opportunities Program ("BTOP") under the National Telecommunications and Information Administration, U.S. Department of Commerce ("NTIA"), the parties hereto agree that the NTIA hereby has the right of assignment of this Grant of Non-Exclusive Easement to the NTIA if CVIN fails to act in accordance with the NTIA BTOP award. In the event of such assignment, the assignee shall be bound the terms hereof.

14. The Easement will be granted to CVIN for 20 years from the date of the execution of this document. At the option of Grantor, this Easement may be extended by written mutual consent of the parties hereto or their successors or assigns.

EXHIBIT B-1

CVIN-KINGS COUNTY Hanford Library Easement

As depicted on the engineering drawing, one Site Connection Fiber Optics Path connects the Hanford Library to the CVIN Backbone.

- The existing CVIN Backbone Transmission Fiber-Optics Path runs north and south along N. Douty Street.
- An existing CVIN 24"X36" vault is located on the CVIN Backbone in road right-of-way at the northeast corner at N. Douty Street and East 9th Street (location 'X').
- A CVIN 1.25" lateral conduit has been placed from the existing CVIN vault to an existing Kings County vault east on 9th Street (location 'X' to 'Y').
- CVIN will utilize the existing Library conduit between the vault to the Library data center (location 'Y' to 'Z').
- CVIN will install a 10/12mm microduct with a 6-count fiber to connect the Library data room to the CVIN vault on the CVIN Backbone.
- This Site Connection Fiber Optics Path will be used to serve the Hanford Library, and through it, branch libraries connected to the County Library by providing connectivity to the San Joaquin Valley Library System Network (SJVLS). The SJVLS Network is a private network that will run over CENIC's statewide CalREN advanced service network infrastructure, which utilizes the CVIN Backbone in the Central Valley.

INSURANCE REQUIREMENTS.

- a. CVIN shall procure and maintain for the duration of this Grant insurance covering claims for injuries to persons and damage to property which may arise from or in connection with actions or omissions of CVIN and its agents, representative, employees, or subcontractors occurring hereunder. CVIN will maintain the following coverage, and coverage shall be at least as broad as:

- (1) **Commercial General Liability (CGL):** Insurance Services Office (ISO) Form CG 0001, including products and completed operations, with limits of no less than TWO MILLION AND NO/100 DOLLARS (\$2,000,000) per occurrence for bodily injury, personal injury, and property damage. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be FOUR MILLION AND NO/100 DOLLARS (\$4,000,000), twice the required occurrence limit.
- (2) **Automobile Liability:** ISO Form Number CA 0001 covering any auto (Code 1), with a limit no less than ONE MILLION AND NO/100 DOLLARS (\$1,000,000) per accident for bodily injury and property damage.
- (3) **Workers' Compensation:** as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with a limit of no less than ONE MILLION AND NO/100 DOLLARS (\$1,000,000) per accident for bodily injury or disease.

If CVIN maintains higher limits than the minimums shown above, Grantor requires, and shall be entitled to, coverage for the higher limits maintained by CVIN.

CVIN's insurance policies shall be "occurrence" policies and not "claims-made" coverage.

CVIN may maintain an Umbrella policy in conjunction with the insurance policies referenced above. In such case, CVIN shall be deemed to have satisfied the insurance requirements of this Grant as long as: (i) the coverage limits of the Umbrella policy and of the underlying liability policy(ies), when combined, satisfy each of the per occurrence and aggregate requirements identified in this subsection a.; and (ii) coverage under the Umbrella policy is as broad as and includes all incidents and events covered by the underlying insurance that it supplements.

- b. Any deductibles or self-insured retentions must be declared to and approved by Grantor. Grantor may require CVIN to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. Alternatively, Grantor may require CVIN to provide a financial guarantee satisfactory to Grantor guaranteeing payment of losses and related investigations, claim administration, and defense expenses within the retention.
- c. The policies are to contain, or be endorsed to contain, the following provisions:

EXHIBIT C PAGE 2 OF 2

- (1) Grantor and their respective officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL and automobile liability policies with respect to liability arising out of work or operations performed by or on behalf of CVIN including materials, parts, or equipment furnished in connection with such work or operations; products used by CVIN; or automobiles owned, leased, hired or borrowed by CVIN. General liability coverage can be provided in the form of an endorsement to CVIN's insurance at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10 and CG 20 37 if a later edition is used. The coverage shall contain no special limitations on the scope of protection afforded to Grantor, and their respective officers, officials, employees or volunteers.
 - (2) For any claims related to this Grant, CVIN's insurance coverage shall be primary insurance as respects to and their respective officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by Grantor and/or their respective officers, officials, employees, or volunteers shall be in excess of CVIN's insurance and shall be non-contributory.
 - (3) Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to Grantor.
- d. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII.
 - e. CVIN shall furnish Grantor with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by Grantor before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the CVIN's obligation to provide them. Grantor reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.
 - f. CVIN hereby grants to Grantor and their respective officers, officials, employees, and volunteers a waiver of any right to subrogation which any insurer of CVIN may acquire against Grantor and/or their respective officers, officials, employees, and volunteers by virtue of the payment of any loss under such insurance. CVIN agrees to obtain endorsements necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not Grantor has received a waiver of subrogation endorsement from the insurer.
 - g. Grantor reserves the right, in good faith, to modify the insurance requirements contained in this Grant, including, without limitation, coverage limits, based on the nature of the risk, prior experience, insurer, coverage, length of the term of this Grant, or other special circumstances.
 - h. CVIN shall require and verify that all subcontractors maintain insurance meeting all of the requirements stated herein.

Tests will be performed after the connectors have been installed and will be from the jumper side of the termination panel bulkhead connector, at the Fiber Optic origination point and through and to the jumper side of the bulkhead connectors at each locations Demarcation Point Fiber Optic termination panel. Maximum loss will not exceed manufacturers' passive cable system attenuation, adjusted for cable length, splice loss (maximum loss per splice is .2dB) and connector loss. The maximum connector pair loss is assumed to be .5dB.

5. Ownership. All Facilities installed and designated for services as set forth in the Scope of Services shall be and remain the property of CVIN; this excludes any facilities constructed and paid for by the COUNTY as necessary to deliver fiber optics to the defined connection point of CVIN.

6. Maintenance and Restoration.

(A) General. After completion each party shall be responsible for performing (at its own cost) all maintenance and repairs of its Facilities. Such maintenance and repairs shall be performed in a good and workmanlike manner, in accordance with the specifications of this Agreement, the Scope of Work, the National Electrical Safety Code, the National Electrical Code, applicable industry standards, and regulations of applicable Governmental Authorities.

(B) Emergency Maintenance. Subject to any limitations contained in the Scope of Work, in the event of an emergency, each party shall have the right to perform maintenance and/or restoration of its Facilities and such party shall use its best efforts to notify the other party as soon as practicable of such efforts.

(C) Damages. Each party shall indemnify and hold harmless the other party for any losses, costs or damages to such other party's property (including, without limitation, its Facilities) arising from the indemnifying party's negligence or intentional misconduct in its maintenance or restoration efforts.

7. Representations and Warranties. Each party represents and warrants that it has full right and authority, including any requisite corporate authority, to perform its respective obligations under this Agreement; the execution of this Agreement is not violative of its charter, by-laws or any law, regulation or agreement by which it is bound or to which it is subject; no litigation or governmental proceeding (other than the Authorizations required by any Governmental Authority to occupy and use the locations and rights-of-way for the Facilities constructed herein) is pending or threatened in writing which might have a material adverse effect on this Agreement, the transaction contemplated by this agreement or the rights of the parties hereunder. Each party further warrants that it shall carry out its obligations hereunder in a professional and workmanlike manner. Except for the foregoing and except as otherwise provided in the Agreement, neither party makes any warranty to the other, and each party

expressly disclaims all further warranties, including without limitation, the implied warranties or merchantability or fitness for purpose.

The parties shall proceed in an amicable manner to resolve such dispute for at least thirty (30) days, after which either party shall have the right to seek redress of such dispute by other legally available means. In no event shall either party be entitled to bill the other party more frequently than once each month for any amounts due under this Agreement.

(A) Payment Default. Undisputed amounts owed to CVIN not paid within sixty (60) days of receipt of an invoice may be deemed in default ("Payment Default") by CVIN at its sole discretion, upon written notice to Participant. Any such Payment Default may, at CVIN's sole discretion, be grounds for termination of this Agreement by CVIN.

(B) Costs. In the event of a Payment Default, and in addition to its rights set forth above, CVIN shall be entitled to recover from COUNTY its reasonable costs of collection, including reasonable attorneys' fees and court costs.

10. Indemnification. Except to the extent such claims are caused by the negligence of a party indemnified hereunder, each party ("Indemnitor") shall defend, indemnify and hold harmless the other party ("Indemnitee") from and against and shall pay all losses, damages, liabilities, penalties, fines, assessments, claims and actions, and all related expenses (including reasonable attorneys' fees and expenses and the costs of litigation) by reason of injury or death to any person, damage to any property or any other occurrence arising out of, resulting from or in any manner caused by or related to: (i) the negligence or intentional misconduct of the Indemnitor in the installation, maintenance, operation, presence, use or removal of any Facilities; (ii) infringement of copyright, libel, slander, or unauthorized use of information arising out of, resulting from or in any manner caused by the operation or use of Indemnitor's Facilities; (iii) Indemnitor's failure to secure necessary Authorizations from any applicable Governmental Authority and any necessary rights-of-way from owners of property; or (iv) infringement of patents with respect to the manufacture, use and operation of Indemnitor's Facilities. Any party seeking indemnification hereunder ("Indemnitee") shall promptly notify the other party ("Indemnitor") of the nature and amount of such claim and the Indemnitee shall consult with the Indemnitor respecting the defense and satisfaction of such claim, including the selection of and direction to legal counsel, and the Indemnitee shall not pay or settle any such claim without the prior written consent of the Indemnitor, which consent shall not be unreasonably withheld. To the extent such limitation is legally enforceable, in no event shall either party be liable for any

punitive, consequential, incidental, special damages or lost profits incurred or alleged to have been incurred by anyone.

11. Insurance. During the term of this Agreement, each party shall obtain and maintain, and shall require any of its permitted subcontractors to obtain and maintain, the following insurance, naming the other party as an additional insured: (i) Commercial General Liability insurance with minimum limits of: \$2,000,000 general aggregate limit; \$1,000,000 each occurrence sub-limit for all bodily injury or property damage incurred in any one occurrence; \$1,000,000 each occurrence sub-limit for personal injury and advertising; \$2,000,000 products/completed operations aggregate limit, with a \$1,000,000 each occurrence sub-limit for products/completed operations; (ii) worker's compensation insurance in amounts required by applicable law and employer's liability insurance with minimum limits of \$100,000 for bodily injury-each accident, \$500,000 for bodily injury by disease-policy limits and \$100,000 for bodily injury by disease-each employee; (iii) and automobile liability insurance covering death or injury to any person or persons, or damage to property arising from the operation of vehicles or equipment, with limits of not less than \$1,000,000 combined single limits per occurrence, which coverage shall extend to all owned, hired and non-owned vehicles.

(A) Self-insurance. Both parties expressly acknowledge that a party shall be deemed to be in compliance with the provisions of this Section if it maintains an approved self-insurance program providing for retention of up to \$ 2,000,000.

(B) Certificates. Unless otherwise agreed, all insurance policies shall be obtained and maintained with companies rated B+-VII or better by Best's Key Rating Guide and each party shall, upon request, provide the other party with an insurance certificate confirming compliance with the requirements of this Section 13. Such certificates shall provide for thirty (30) days' advance written notice to the other party for any cancellation, material change, reduction of coverage or non-renewal.

(C) Liability. The obtaining and maintaining of insurance coverage in accordance with this Section 13 shall not be construed as in any way limiting or eliminating a negligent (or intentionally wrongful) party's liability to indemnify the other party in accordance with the applicable provisions of this Agreement for losses suffered by such other party.

12. Termination. In the event a party fails to observe or perform any of the material terms and provisions of this Agreement and such failure continues for a period of thirty (30) days after written notice from the other party (or such longer period as may be necessary if such failure cannot reasonably be cured within such 30 day period, provided that such party promptly and diligently undertakes efforts to bring about such cure and thereafter proceeds, in good faith, to cure such failure; which in no event shall exceed sixty (60) days) ("Default"), the non-defaulting party may, in addition to any and all other remedies allowed by law, terminate this Agreement in its entirety. Upon termination of this Agreement for Default, CVIN shall continue to complete the Work to a reasonable stopping point, and each party shall pay for its pro rata share of the Project Costs through the completion of such Work.

13. Condemnation. Upon receipt of a formal notice of condemnation or other taking by eminent domain, each party shall notify the other party immediately of any such proceeding that is threatened or filed against any portion that may affect the services described herein.

14. Waiver of Compliance. Failure of either party to enforce or insist upon compliance with any of the terms or conditions of this Agreement shall not constitute a waiver or relinquishment

of any such terms or conditions. To the contrary, the same shall remain at all times in full force and effect.

15. Limitations. Except as set forth in this Agreement, nothing shall in any way restrict, modify, or alter either party's absolute right to lease, sell, dispose of or utilize, in its sole discretion, its Facilities which are subject to this Agreement. The party leasing, selling or disposing of its Facilities shall either (i) include the maintenance and restoration language in paragraph 6 of this Agreement in any agreement to lease, sell or dispose of the Facilities or (ii) make such lease, sale or disposal specifically subject to such provisions.

16. Assignment. Neither Party may assign or otherwise transfer this Agreement or its duties and obligations contained in this Agreement without the prior written consent of the other, which consent shall not be unreasonably withheld or delayed; provided, however, neither party shall be required to obtain the consent of the other for any corporate reorganization, assignment or transfer of this Agreement or the rights herein granted to any Affiliate, any purchaser of all or substantially all of the assets of such party, or any person with which or into which such party may merge or consolidate. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective permitted successors and assigns.

EXHIBIT B

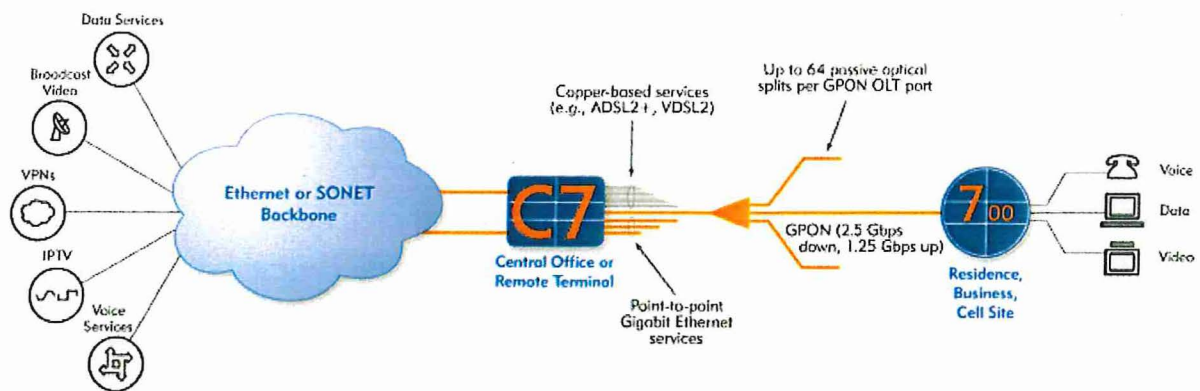

Scope of Services

CVIN has installed a 72 count fiber through Kings COUNTY. As a result we have to utilize the strands as efficiently as possible in order to maximize the benefit of this new installation. Should the COUNTY evokes its right to service under this agreement, CVIN plans on installing a GPON system in order to support multiple connections for the COUNTY and limit the number of fiber strands required. CVIN reserves the sole right to install other technology as it becomes available should CVIN determine it is more efficient or is a better use of CVIN assets. The costs of alternative equipment shall be comparable and full documentation will be provided to the COUNTY for approval. Such approval will not be unreasonably withheld.

CVIN plans to connect the COUNTY facilities is through a Gigabit Passive Optical Network, or GPON. GPON is a point-to-multipoint access mechanism. Its main characteristic is the use of passive splitters in the fiber distribution network, enabling one single feeding fiber from the provider's central office to serve multiple small locations.

GPON has a capacity limit that is shared among users. Encryption is used to keep each user's data secured and private from other users.

A GPON system consists of an optical line terminal (OLT) that connects several optical network terminals (ONTs) together using a passive optical distribution network (ODN). Like active Ethernet, it aggregates users in what is called the "outside plant" or OSP, which means no mess of fibers in a central office somewhere; like point-to-point, it avoids the need for active electronics in the field by employing a passive OSP device (the optical splitter). Being a passive device, the GPON splitter requires no cooling or powering and is therefore extremely stable.

Calix C7 GPON solutions provide unmatched capacity and service flexibility

The COUNTY would have to contribute to the purchase of the GPON system at an upfront cost of \$53,750. CVIN will retain ownership and responsibility for the GPON system. Kings County could add 100 Mbps connection for a one-time cost of \$2000.00 per site for the equipment and a monthly recurring charge of \$500.00 / mo. 1 Gbps connections could be added for the same \$2,000 upfront and \$900.00 per month. GPON system has a bandwidth capacity limitation. Once the County reached that capacity based on traffic patterns, investment in additional GPON equipment will be necessary. Electronic Equipment typically has a useful life of 5-7 years. After this useful life, CVIN will provide the COUNTY with an update quote on the cost to refurbish or replace the GPON equipment in order to continue receiving services.

Kings County

Upfront Cost \$ **53,750.00**

Price per Connection	
Upfront	Monthly Recurring per Connection
(Equipment / Splicing Etc.)	100 Mbps
\$ 2,000.00	\$ 500.00

These connections are not to be re-sold and are to be utilized for the connection of County facilities, and other public agencies, such as the School District offices to connect to the Kings County Office of Education. Any non-profit private organizations with which the COUNTY has a service relationship that the County desires to make a connection requires the express written consent of Vast, this consent will not be unreasonably withheld. These

non-profit and private connections are to be used for point to point connections to County Facilities and are NOT to be utilized to deliver Internet Services.

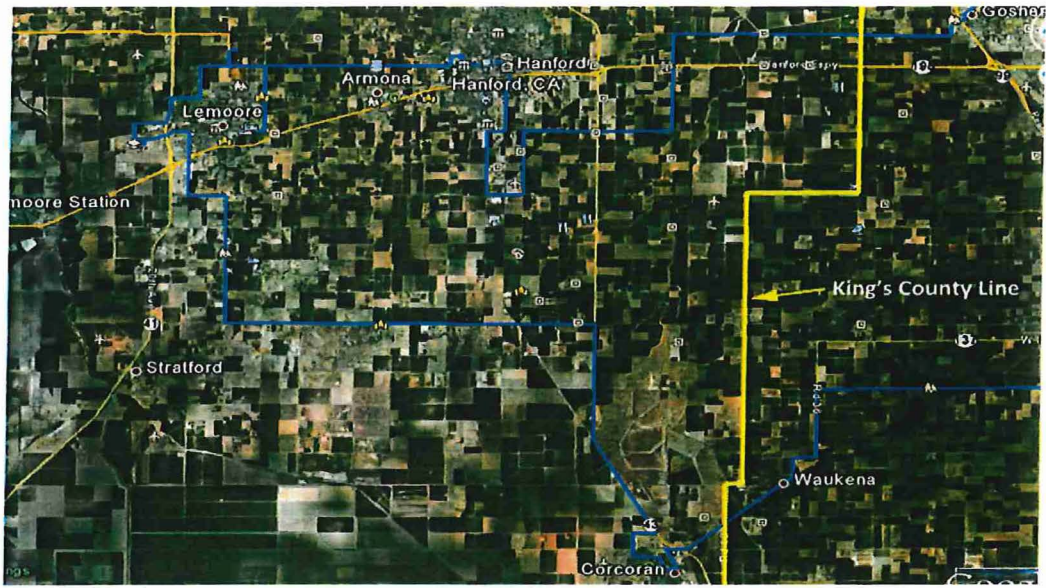

For pricing purposes, COUNTY's various connections shall be aggregated to determine maximum bandwidth for pricing purposes. COUNTY shall be billed at the lesser of the pricing listed below, which is subject to an annual adjustment equal to the lesser of (a.) 3% or (b.) (b) cumulative changes in the U.S. Consumer Price Index, All Urban Consumers (CPI-U), U.S. City Average, published by United States Department of Labor, Bureau of Labor Statistics increase in MRC over the previous year. In the event the Bureau of Labor Statistics (or any successor organization) no longer publishes the CPI-U, the parties shall mutually agree on the statistical index most appropriate for collection of fee adjustments hereunder, or 75% of any special pricing package offered to other institutional or commercial customers within Kings County, whichever is less, throughout the term of the Agreement, as extended. The pricing is contingent on COUNTY'S ongoing purchase of Internet Bandwidth at a minimum of 100 Mbps as priced below. The Internet bandwidth would be delivered to the main Kings County Government Center location and could be distributed to all the other sites via the GPON system.

Bandwidth Pricing	
CIR (Mbps)	Monthly Recurring
100	\$ 1,900.00
150	\$ 2,800.00
250	\$ 3,500.00
350	\$ 4,200.00
500	\$ 5,100.00
750	\$ 6,000.00
1000	\$ 6,900.00

Upon cancellation of Internet Bandwidth the prices reflected above would increase to the current market rates. The current market rates for a point to point, 100 Mbps is \$1,400 / Mo. at the time of this contract.

Service Area

The COUNTY can elect to utilize CVIN services throughout Kings County, provided that the COUNTY at its sole expense extends fiber to a CVIN connection Point.

SUBJECT:

Deposit and Investment Agreement with Tulare County

RECOMMENDATION:

That the City Council, by motion, authorize the City Manager to execute a Deposit and Investment Agreement with the County of Tulare, allowing for the investment of a portion of the City's portfolio into the County pool.

BACKGROUND:

At the April 16, 2013 City Council Meeting, the City Council adopted Resolution 13-19-R, authorizing the City of Hanford to invest a portion of portfolio holdings into County investment pools. This approach is designed to increase the rate of return on idle cash, currently being held in the Local Agency Investment Fund (LAIF) which is managed by the State of California to address daily cash flow needs.

The attached agreement will allow the first of such investments to take place. It is anticipated that the City of Hanford would benefit by an estimated \$250,000 in additional interest earnings, with the same risk exposure as the balance of the City's portfolio.

FISCAL IMPACT:

Increased portfolio rate of return for the City of Hanford.

AGENDA SECTION: 5. I.

SUBJECT:

Out of state travel to perform final construction inspections on two fire engines in Appleton, Wisconsin.

RECOMMENDATION:

That the City Council approve Out of State Travel for Fire Chief Timothy Ieronimo, Captain Frank Etulain, Fire Captain David Rossman and Firefighter Dennis Springer during September 17 – September 20, 2013. The Purpose of this trip is to perform the final construction inspections on two fire engines in Appleton, Wisconsin.

BACKGROUND:

In March, 2013 the city council approved the purchase of two new Pierce Impel PUC type one engines from Pierce Manufacturing, Inc. These engines are currently under construction at the Pierce factory in Wisconsin. Our contract with Pierce provides for three factory inspection trips for Hanford Fire Department representatives. This final construction inspection is to verify specification compliance and visibly evaluate the quality of work prior to the engines being delivered to the Hanford Fire Department.

FISCAL IMPACT:

There is no fiscal impact, these inspection trips are totally funded by Pierce Manufacturing, Inc. as a part of our contract.

AGENDA SECTION: 5. J.

SUBJECT:

Purchase of One 2014 Ford Taurus Police Support Vehicle

RECOMMENDATION:

That the City Council, by motion, approve a budget amendment and authorize the purchase of one 2014 Ford Taurus from Valley Ford of Hanford and the outfitting of the vehicle by Cook's Communications of Fresno in the amount of \$31,058.10.

BACKGROUND:

The Police Department's current support vehicle is a 2005 Ford Crown Victoria and is used in the department's investigative division. The vehicle has a fleet replacement lifecycle criteria of five years or 75,000 miles. The vehicle being replaced is showing signs of increased wear as documented by maintenance records and has become unreliable for front line duty. The proposed vehicle is less conspicuous than a full size sedan (easily recognized as an unmarked police vehicle) and will be used for surveillance as well as investigative purposes.

Bids to purchase the vehicle were requested from three vendors with results summarized as follows:

- | | |
|-------------------------------|--------------|
| 1. Valley Ford, Hanford | \$23,897.40* |
| 2. Will Tiesiera Ford, Tulare | \$23,197.58 |
| 3. Lithia Ford, Fresno | \$24,216.83 |

*\$23,180.48 with 3% local preference adjustment per City Municipal Code Section 2.48.070.

FISCAL IMPACT:

The replacement of this vehicle was inadvertently left out of the FY 2013/14 Fleet Replacement budget and, therefore, requires a budget amendment to fund the purchase. The City's Fleet Replacement Reserve Program has collected approximately \$27,670 to date to fund and equip a replacement vehicle. The total purchase price for the vehicle (\$23,897.40) and associated communications equipment (\$7,160.70) is \$31,058.10. Therefore, an additional appropriation of \$3,388.10 is needed from Fleet Replacement Fund Reserves to purchase the vehicle.

AGENDA STAFF REPORT

MEETING DATE: 9/3/2013

AGENDA SECTION: 6. M.

SUBJECT:

Margarita Finau Home Loan

RECOMMENDATION:

The City Attorneys' Office recommends that the City of Hanford Housing Authority's board of directors authorize and direct the Housing Authority Executive Director, Darrel Pyle, to sign the attached Subordination Agreement.

BACKGROUND:

The Community Redevelopment Agency of the City of Hanford (RDA) extended a home loan in 2007 to Margarita Finau in the amount of \$100,000.00. The RDA's loan was secured by a Deed of Trust recorded against Ms. Finau's residence located at 507 E. Grangeville Blvd. The RDA's Deed of Trust was in second position behind a Deed of Trust that secured a \$118,325.00 loan that Ms. Finau previously received from ComUnity Lending.

Ms. Finau refinanced her ComUnity loan in 2008. Ms. Finau's new lender was Countrywide. Countrywide's loan to Ms. Finau is secured by a Deed of Trust recorded against the 507 E. Grangeville Blvd. property. Ms. Finau's Countrywide loan, including the Deed of Trust, was subsequently transferred to Bank of America.

The City was contacted by an attorney, Jessica Busse, for Chicago Title Company (CTC). CTC issued the title policy when Countrywide made its loan to Ms. Finau. Ms. Busse asked that the Deed of Trust securing the RDA's loan, which was transferred to the Housing Authority, be subordinated to the Countrywide Deed of Trust, which is now held by Bank of America. Normally, the request for subordination would have occurred before the Countrywide loan was funded.

We suspect that the subordination issue has arisen because Bank of America intends to foreclose. If the Deed of Trust held by Bank of America is in first position, foreclosure by that lender will eliminate all junior liens, including the Housing Authority's Deed of Trust. The Housing Authority will only receive payment out of Bank of America's foreclosure if the sale of the property generates an amount in excess of what is owed to Bank of America.

The principal of equitable subrogation states that, if a lender like Countrywide loans money that is used to pay an existing loan, the new lender is allowed to step into the shoes of the old lender. In other words, since Countrywide's loan was used to pay the ComUnity loan in full, Countrywide's Deed of Trust, which is currently held by Bank of America, automatically replaces the ComUnity Deed of Trust in first position, and the Deed of Trust held by the Housing Authority remains in second position.

Equitable subrogation applies if five requirements are satisfied. Ms. Busse was asked to address the five requirements and to illustrate that all have been satisfied in the current matter. Attached is a copy of a June 18, 2013 email from Ms. Busse that discusses the five requirements. She points to evidence that substantiates her conclusion that the five requirements have been satisfied.

Griswold LaSalle agrees with Ms. Busse's analysis and conclusion. By virtue of the principal of equitable subrogation, the Deed of Trust held by the Housing Authority is in second position behind the Countrywide Deed of Trust even though the Housing Authority Deed of Trust was recorded earlier.

Since CTC issued the title policy when Countrywide made its loan to Ms. Finau, CTC is legally obligated to establish that the Countrywide Deed of Trust is in first position. Rather than filing a lawsuit to confirm Bank of America's equitable subrogation rights, CTC has asked that the Housing Authority voluntarily sign the attached Subordination Agreement.

The Housing Authority has two options: (i) sign the Subordination Agreement; or (ii) do nothing and face the possibility of a lawsuit over Bank of America's equitable subrogation rights. Since CTC would prevail in such a lawsuit, Griswold LaSalle recommends that the Housing Authority authorize and instruct Executive Director Darrel Pyle to sign the attached Subordination Agreement.

FISCAL IMPACT:

None.

Dear Mr. Mizote,

As stated in my letter dated June 25, 2013, the Company insured a Deed of Trust on the Property where the lender, Countrywide Bank, FSB ("Countrywide"), loaned the principal amount of \$125,000.00 (the "Insured Deed of Trust") to Margarita and Edgar Munoz (collectively, the "Borrowers") on or about January 23, 2008. (The Insured Deed of Trust has since been assigned to Bank of America, N.A.) The closing for this transaction took place on January 25, 2008. As you can see from the Final HUD-1 settlement statement that I have attached hereto, the Insured Deed of Trust paid off a prior deed of trust in the amount of \$116,150.62. The deed of trust that was paid off was recorded on May 16, 2007 as Document No. 0712987 in Kings County, California "the (Prior Deed of Trust)". A copy of the Prior Deed of Trust is also attached for your reference. The Prior Deed of Trust was recorded before that deed of trust given to the City of Hanford and, as a result, the Prior Deed of Trust had priority over the City's deed of trust. The Company believes that the Insured Deed of Trust should be subrogated to the interests of the Prior Deed of Trust which would give the Insured Deed of Trust priority over the City's deed of trust as well.

The five (5) factors that must be satisfied in order for one who claims to be equitably subrogated to the rights of a secured creditor are as follows: (1) payment must have been made by the subrogee to protect his own interest; (2) the subrogee must not have acted as a volunteer; (3) the debt paid must be one for which the subrogee was not primarily liable; (4) the entire debt must have been paid; and (5) subrogation must not work any injustice to the rights of others."

The first two (2) requirements were discussed in further detail by the California Court of Appeals in *Smith v. State Savings & Loan Assn.*, 175 Cal.App.3d 1092 (1985). In that case, the Court found that State Savings and Loan Association should be subrogated to the rights of the senior encumbrances it had paid off as part of a refinance transaction, even though State was given a deed of trust encumbering the property after a deed of trust in favor of Michael Smith had been recorded against the property. The Court stated that "[i]n making such a loan in the course of its business, State obviously had sufficient interest to entitle it to subrogation to the rights of the senior encumbrances. One who advances money at the request of the debtor to pay off an encumbrance with the understanding that the advance will be secured by a first trust deed ... is not a mere volunteer." *Id.* at 1099.

This case is similar because the Borrowers requested that Countrywide provide refinancing in order to pay off the Prior Deed of Trust and by doing so it was the understanding of the parties that Countrywide's refinancing would be secured by a first trust deed. In accordance with this understanding, the Company insured the Insured Deed of Trust to be a valid first lien on the Property.

The third requirement was addressed in *United States v. Finch*, CV 07-3317 CAS RCX, 2008 WL 8796671 (C.D. Cal. Jan. 8, 2008) where the United States District Court for the Central District of California found that this element was satisfied when a lender undertook to pay off a prior deed of trust when it entered into a refinance agreement with the borrower. The Court further provided that it was the borrower who was primarily liable on the loan and not the lender. As such, Bank of America is not primarily liable on the Insured Deed of Trust and this requirement has been satisfied.

The fourth requirement of equitable subrogation has also been satisfied. The Prior Deed of Trust was paid in full at closing and this is evidenced by the reconveyance of the Prior Deed of Trust that was recorded on February 8, 2008 as Document No. 082737 in Kings County, Washington.

Finally, subrogation must not work any injustice to the rights of others. The City of Hanford was already in a second lien position. In *Smith*, the California Court of Appeals found that Smith "...knowingly and willingly accepted a fourth priority position, junior to three existing encumbrances. State here seeks only to be subrogated to the rights of the three prior encumbrances. The whole theory of equitable subrogation in such situations is that the junior encumbrancer (Smith) is left in exactly the same junior position he had before. (*1098 *Shaffer v. McCloskey* (1894) 101 Cal. 576, 580–581, 36 P. 196; 73 Am.Jur.2d, Subrogation, § 103, pp. 663–664.) If granting equitable subrogation to State would not prejudice Smith but leave him in the same position he had before, and is otherwise equitable, it should be granted. *Smith*, at 1097-98.

Here, the City of Hanford willingly accepted a second priority position, junior to that of the Prior Deed of Trust. Bank of America seeks to be subrogated to the rights of the Prior Deed of Trust which would leave the City of Hanford in exactly the same junior position it had before. Thus, all of the elements of equitable subrogation have been satisfied and Bank of America should be subrogated to the rights of the Prior Deed of Trust.

Further, California courts have held that equitable subrogation is a broad equitable remedy that applies not only when *Caito's* five factors are met, but also whenever, "one person, not acting as a mere volunteer or intruder, pays a debt for which another is primarily liable, and which in equity and good conscience should have been discharged by the latter."); *Han v. United States*, 944 F.2d 526, 529 (9th Cir.1991).

Accordingly, the Company once again requests that the City release their interest in the Property or subordinate their interest in the Property to that of the Insured Deed of Trust. If the City refuses to do so, the Company will take any and all actions necessary to protect our legal interests. Thank you.

Warm Regards,

Jessica L. Busse

Ms. Busse:

Our firm represents the City of Hanford and are in receipt of your June 25, 2013 correspondence regarding Claim No. 453679.

We understand that Chicago Title is asking the City to release or subordinate its lien rights. City staff has confirmed that the borrower's loan remains outstanding; as a result, the City will not reconvey its Deed of Trust at this time since reconveyance would result in the City loan being unsecured.

The City recognizes the legal principle of equitable subrogation. We ask that you provide evidence illustrating that the five (5) requirements of *Caito v. United Cal. Bank* (1987) 20 Cal.3d 694 have been satisfied in the matter at hand. We will gladly review such evidence with the City.

Thank you,

Chapter 5.52 TAXICABS, AUTOMOBILES FOR HIRE, AND DRIVERS FOR HIRE

5.52.010 Definitions.

For the purposes of this chapter, unless otherwise apparent from the context, certain words and phrases used in this chapter are defined as follows:

“Automobile for hire” means and includes every automobile or motor-propelled vehicle by means of which passengers are transported for hire upon any public street in the city and not over a regular or defined route, irrespective of whether the operations extend beyond the city limits, except vehicles defined as taxicabs and except vehicles of transportation companies.

“Driver for hire” means and includes any individual or business entity that transports a passenger or passengers for hire in an automobile or motor-propelled vehicle, which owned by or within the legal possession of a passenger or a person or entity other than the driver for hire, upon any public street in the city, irrespective of whether the operations extend beyond the city limits.

“Taxicab” means and includes every automobile or motor-propelled vehicle by means of which passengers are transported for hire upon any public street in the city and not over a regular or defined route, irrespective of whether the operations extend beyond the city limits, when a charge for such transportation is measured by the distance traveled or by the time required for such transportation or both, except vehicles of transportation companies and vehicles operated on behalf of a passenger or passengers by a driver for hire.

“Transportation company” shall be synonymous with the phrase “carrier” as defined by the Public Utilities Code of the state. (10-09, Amended, 10/19/2010)

5.52.020 Permit required.

A. It is unlawful for any person or business entity to operate or cause to be operated, any automobile for hire or taxicab upon any public street in the city or offer driver for hire services within the city without first having obtained a permit so to do in accordance with the provisions of this chapter and without complying with or having complied with, all the provisions of this chapter.

B. This chapter shall not apply to the transportation of injured, disabled, or handicapped persons in specially equipped vehicles that are not ordinarily used for the transportation of taxicab patrons. Persons operating a service claiming such an exemption shall transport only injured, handicapped, or disabled persons and their attendants. (10-09, Amended, 10/19/2010)

5.52.030 Permit—Application—Fee.

Any person or business entity desiring to obtain the permit required by Section 5.52.020 of this chapter shall pay to the director of finance a fee in the amount fixed by resolution of the council and shall make an application for such permit to the council, which application shall set forth:

A. The name and address of the applicant, and, if the applicant shall be a corporation or limited liability company, the names of its principal officers, directors, and managers; or, if the applicant shall be a partnership, association or sole proprietorship (including a sole proprietorship operating under a fictitious business name), the names of the partners or persons comprising the association or company, with the address of each.

B. A statement as to whether the permit is desired for an automobile for hire, taxicab, or driver for hire services.

- H. Upon any change in ownership of a taxicab, an automobile for hire, or a business involving a taxicab, automobile for hire, or driver for hire services, the new owner shall, as a condition of commencement of operations, submit an application for permit in the manner provided in this chapter. (10-09, Amended, 10/19/2010)

5.52.040 Permit application—Hearing—Issuance—Denial.

- A. Upon the receipt of any such application, the director of finance shall set a time, not less than ten (10) days nor more than thirty (30) days thereafter, for the hearing on the application by the council and shall give notice of the time so set, at least five (5) days before the date of the hearing, to the applicant and to any other such permit holder at the address set forth in such application (and by publication if directed by the council).
- B. At the time set for the hearing of such application, the council may examine the applicant and all persons interested in the application and shall determine whether or not the public interest, convenience and necessity require the issuance of the permit applied for. - C. Without limitation, the following reasons shall be sufficient for the denial of the permit:
 - 1. That the application is not in the form and does not contain the information required by the provisions of this chapter;

5. That the applicant, at some prior time, has had a permit for the operation of an automobile for hire, taxicab, or driver for hire business revoked for any reason; or

6. That it shall appear to the council that there is a sufficient number of taxicabs, automobiles for hire, or driver for hire businesses in the city to fully serve the public, that the granting of additional permits would unduly congest the traffic and interfere with the free use of the public streets by the public or that the public interest, convenience and necessity do not require the issuance of such permit. (10-09, Amended, 10/19/2010)

5.52.050 Insurance.

Before a permit shall be issued by the director of finance, the applicant to whom a permit shall have been awarded by the council shall deliver to the council a policy of insurance, executed by a company duly authorized under the laws of the state to do business, in which policy the insurance company promises and undertakes to pay in full all claims for damages to persons or property resulting from the operation of the vehicles or provision of services referred to in the application. The minimum amount for which liability shall be assumed for injury to, or the death of, any person in any one accident and for injury to, or the death of, more than one person in any one accident and the minimum amount for which liability shall be assumed for injury to, or the destruction of, property in any one accident shall be the minimum amounts as set forth in Section 16500 of the Vehicle Code of the state. (10-09, Amended, 10/19/2010)

5.52.060 Drivers' permits.

A. Required. It is unlawful for any person to drive any taxicab or automobile for hire or provide driver for hire services without first obtaining a permit from the city. Such permits issued shall entitle the driver to work only for the owner whose name appears on the permit. A new permit shall be required for each subsequent employment. Drivers' permits are separate and distinct from the permits required under Section 5.52.020 of this chapter.

B. Application. Applicants for such permits shall file applications therefor with the police chief upon forms to be furnished by the city.

C. Issuance—Refusal. Permits shall be in the form of a card which shall bear the signature, photograph and fingerprints of the applicant. Such card shall be issued by the Hanford police department. An electronic copy shall be kept by the police department and the original card shall be conspicuously worn by drivers at all times while operating a taxicab or automobile for hire or while providing driver for hire services. No permit shall be issued to any of the following persons:

1. Any person under the age of twenty-one (21) years;
2. Any person who, within the last ten (10) years, has been convicted of a felony or a crime involving moral turpitude;
3. Any person who, within the last seven (7) years, has been convicted of reckless driving or driving while under the influence of intoxicating liquor, narcotics, or controlled substance; or
4. Any person not possessing a State Class C driver's license of the state.

D. Examination. Each applicant shall be examined by a person designated by the police chief as to the applicant's knowledge of the provisions of this chapter, the Vehicle Code of the state, and the geography of the city and, if the result of the examination is not satisfactory, he/she shall be denied a permit.

E. Revocation. The police chief may revoke a permit issued or may refuse to renew a permit if the driver or applicant has, since the granting of a permit:

1. Been convicted of a felony or a crime involving moral turpitude;
2. Been convicted of reckless driving or driving while under the influence of intoxicating liquor, narcotics, or controlled substance;
3. Had his/her state operator's license revoked or suspended;
4. Had two (2) or more convictions for speeding within any twelve (12) month period; or
5. Violated any of the provisions of this chapter. (10-09, Amended, 10/19/2010)

5.52.070 Rules and regulations.

The following rules and regulations shall be observed by all persons operating taxicabs or automobiles for hire or providing driver for hire services, and it is unlawful to operate a taxicab or automobile for hire or provide driver for hire services in violation of any of the following rules:

A. Any person operating a taxicab or automobile for hire or providing driver for hire services shall wear a badge issued by the Hanford police department. The badge shall be worn in plain sight inscribed with the name of the person to whom the permit has been issued, the company that the individual is employed by and the chargeable rates of that company. The provisions of this subsection shall not apply to an individual to whom a permit has been issued when driving his/her own car (personal vehicle not engaging in taxicab automobile for hire, or driver for hire services). A fee payable to the Hanford police department shall be adopted by city council resolution to cover the costs of the issuance of said badges.

B. All taxicabs, automobiles for hire, and drivers for hire shall, while carrying passengers, come to a full stop within thirty (30) feet of the nearest rail before crossing any railroad track where no gates are maintained.

C. No automobile for hire or taxicab shall remain standing upon any portion of any public street except for loading and unloading passengers and then not for a period of more than five (5) minutes, except at such stand as may be designated by the council and described in the application for a permit. 5.52.080 Permit—Suspension—Revocation.

A. A permit granted pursuant to this chapter may be suspended by the police chief upon a determination that the continued use of the permit will pose an immediate hazard to the public safety, health or welfare. If such conditions exist, revocation may occur in accordance with the following provisions:

1. Suspension shall be effective immediately upon the issuance of a notice for emergency suspension of a permit by the city's police department; such notice shall contain a notice of hearing that shall occur in accordance with the provisions below.

2. The police chief shall cause a hearing before the council to occur to allow the affected permittee(s) to show cause why the permit should not be suspended. The council may uphold, reverse, or modify the suspension.

3. Such hearing may be combined with a hearing on revocation of the permit, if applicable. Notice of the hearing will be provided to the permittee(s) at least thirty (30) days prior to the hearing date.

4. Unless overturned by the council, any permit suspension imposed by the police chief shall continue until satisfaction of the requirements specified by the police chief for the reinstatement of the permit; provided, however, the council may impose an additional suspension period that continues through a date subsequent to the date on which the Hanford police department confirms that the permittee has satisfied such reinstatement requirements.

5. The decision of the police chief to suspend a permit may be appealed in accordance with Chapter 1.08; provided, the filing of an appeal shall not stay or otherwise affect the suspension of a permit. The permit holder may not exercise any rights under a suspended permit during the suspension period unless expressly allowed under this code.

6. A permittee of a suspended permit will not be issued a new permit while his/her/its permit remains suspended.

B. Any permit granted pursuant to the provisions of this chapter may be suspended or revoked by the council, either as a whole or as to: (i) any or all vehicles described therein, (ii) as to the right to use any distinctive color monogram or insignia, or (iii) any driver, after thirty (30) days' notice to the permittee requiring him/her/it to appear at a certain time and place to show cause why the permit should not be suspended or revoked for any of the following reasons:

1. That the insurance provided for in Section 5.52.050 of this chapter has not been given, has been withdrawn or lapsed for nonpayment of premium or is not in force for any reason;

2. For the nonpayment of any license fee provided by Chapters 5.04 and 5.08;

3. For failure to observe any of the rules, regulations or provisions set forth in this chapter;

4. For the violation of any laws, ordinances, or resolutions of the state or city by any permittee, operator, or driver;

5. For failure to maintain satisfactory service to the public by means of any of the vehicles described in the permit or for failure to keep any such vehicle in use for any reasonable length of time or for failure to use the distinctive color, monogram or insignia described in the application; or

6. For any cause which, in the opinion of the council, makes it contrary to the public interest, convenience and necessity for the permit to continue.

C. The city, within ten (10) days of a hearing on the suspension or revocation, shall mail or otherwise furnish to the affected permittee(s) a written notice of the council's decision, which will identify the grounds of the council's decision. (10-09, Amended, 10/19/2010)

5.52.090 Changes in rates of fares and vehicles used.

In the event any permittee shall desire to change his/her/its schedule of rates and charges or the color scheme, name, monogram or insignia used on any automobile for hire or taxicab or to substitute any vehicle for and in place of the vehicle described in the application for a permit or to increase or decrease the number of vehicles used by him/her as automobiles for hire or taxicabs, he/she shall make application for permission to do so from the council, which permission shall be granted if, in the discretion of the council, it deems the public interest, necessity and convenience will be served by such change and if the permittee has complied with all the provisions of this chapter. (10-09, Amended, 10/19/2010)

5.52.100 Permits nontransferable—Number limited.

A. No permit issued pursuant to the provisions of this chapter shall be transferable, either by contract or operation of law, without the permission of the council having been first obtained, and any such attempted transfer shall be sufficient cause for revocation thereof.

B. No person shall be entitled to hold more than one permit at a time, either as an individual, a member of a partnership, joint venture, or limited liability company, as a stockholder, director, or officer of a corporation or in any other manner. (10-09, Amended, 10/19/2010)

5.52.110 Nonpayment of fare.

It is unlawful for any person to refuse to pay the legal fare for the hire of any automobile for hire, taxicab, or driver for hire with the intent to defraud the person from whom services are received. (10-09, Amended, 10/19/2010)

5.52.120 Adoption of charges, fees, fines, assessments.

The city council may adopt a resolution to levy service charges, fees, fines, and assessments in amounts sufficient to pay for the costs of administering and carrying out the requirements of this chapter. (10-09, Added, 10/19/2010)

5.52.130 Violation of chapter.

Any operator or owner of a business or any driver subject to this chapter that violates any of the provisions of this chapter shall be deemed to have committed an infraction and shall be subject to a fine for such violation. The fines shall be established by the resolution of the city council as provided in subsection (b) of Section 36900 of the Government Code of the state. (10-09, Added, 10/19/2010)

RE: General Plan Update Committee

TO WHOM IT MY CONCERN:

Please accept this letter as my application for appointment to serve on the City's Advisory Committee for the General Plan Update.

I have over four decades of professional real estate experience, including brokerage, development and investment. My partner and I have owned property in east Hanford since 2004. My previous committee involvement includes:

- "CRIS" citizen's committee (City of Merced)
- UC Merced community plan planning committee
- Wastewater Plant expansion task force (City of Merced)
- HCP/NCCP steering committee for Eastern Merced County
- Regional Transportation Improvement Plan steering committee (Merced County Association of Governments)
- South Merced Specific Plan Committee
- West 198 Freeway Corridor Committee (Visalia)
- SR 198 Trade Corridor Expansion to 4 Lanes (LNAS to I-5)

My activity on the Committee would include reviewing alternatives, offer comments and suggest options in order to correlate the establishment of land use development patterns with transportation circulation that would guide Hanford's future growth over the next 15-20 years. To this end, the committee needs to identify issues and constraints relative to economic impacts, circulation, social livability, environmental, infrastructure, etc. for the purpose of maintaining, and perhaps enhancing, the social and economic well-being of the community for years to come.

Letter to City of Hanford

Despite being a non-resident of the City of Hanford, I plan on expanding my participation in real estate development and investment in Hanford for years to come and would, therefore, very much appreciate the opportunity to offer my expertise in this important planning effort.

Thank you for your consideration.

Sincerely,

Citizens Advisory Committee/Hanford General Plan Update

I am very interested and would like to be considered as a participant to the Citizens Advisory Committee for the Hanford General Plan Update.

I have lived in this great city for 12 years. My husband grew up here and graduated from Hanford High School. I retired from Pacific Gas and Electric Company in February 2011, and hold a bachelor's degree in Speech Pathology.

I have been attending nearly every Board of Supervisor's weekly meetings, as well as Hanford City Council meetings. I spoke in favor of "In GOD We Trust" logo being placed in our chambers in Hanford and County chambers. I also attend the Kings County Association of Government monthly board meetings as well as the Technical Advisory meetings with the planners from all the represented cities.

I do not feel this should be a political position, but am interested in the integrity and autonomy of Hanford.

I strongly agree with the decision to form an advisory committee with people from the community. I applaud you for wanting us to be part of the process. Again, please consider me for this very important committee.

Thank You for your consideration,

Dear Council Members,

I would like to submit the following as my letter of intent to serve on the Hanford General Plan Advisory Committee.

I am currently the Executive Director for Main Street Hanford and have worked diligently to revitalize and grow our downtown core. I have served on several City of Hanford committees including the Downtown East Planning Study Committee and the Downtown East Precise Plan Project Steering Committee. As Executive Director of Main Street Hanford, I represent the interests of approximately 325 businesses in downtown Hanford.

Those involved in planning for the future of Hanford will play an important part in the potential for success of this community. I also believe that thoughtful, planned growth is important and that this planning should include downtown with its locally-owned businesses and historic buildings. I wish to serve on this committee to assist with the success of Hanford's future as well as the thoughtful preservation of its past.

Thank you for your time and consideration. I look forward to assisting the City of Hanford, its citizens and the business community.

Letter of Interest to serve on the City Of Hanford General Plan Advisory Committee.

TO: Mayor Martinez and current city council members,

I am submitting this letter of interest to serve on the City of Hanford General Plan Advisory Committee.

My past experience includes four years on the Kings County Planning Commission (1994-1998) and twelve years on the Hanford City Council (1998-2010). During my tenure on The City Council four years were spent as liason to the planning commission, and I actively participated on two general plan updates.

I and my family remain fully vested in the community or Hanford. I would appreciate the opportunity to be able to participate in its planned future growth. I cannot think of anything more important at this place in our history.

Thank You for your consideration,

Sincerely,

AGENDA STAFF REPORT

MEETING DATE: 9/3/2013

AGENDA SECTION: 8. A.

SUBJECT:

Fence repairs to the evidence lock up area located behind the police records building.

RECOMMENDATION:

That the City Council, by motion, select one of these four repair options for the gated area behind the Police Records building located at 412 N. Irwin Street.

Option 1: Repairs to fence with the addition of concertina wire added to the top section.

Option 2: Repairs to fence with the addition of concertina wire added to the top section and the addition of a pedestrian gate.

Option 3: Repairs to fence with the addition of concertina wire added to the top section, the addition of a pedestrian gate and privacy slats.

Option 4: Repairs to fence with the addition of concertina wire added to the top and the addition of privacy slats.

The Hanford Police Department recommends the selection of option 3 for maximum security and employee ease of access.

BACKGROUND:

The Hanford Police Department took over the city owned records building approximately three years ago. The building was in various stages of disrepair and much of the repair work has been done by Hanford Police Department employees and building maintenance staff. Currently, there is a gated area behind the building that is used for the storage of evidentiary items. These items include vehicles, bicycles and other large items that cannot be stored indoors. While the building itself is alarmed, the outside storage area has no security features except for the fence itself. This fence is no longer adequate to secure the items contained within it.

Recently, we have been the victim of thefts from this gated area. Due to these thefts the fence has been broken and is no longer secure. We have attached photos of the fence so that you can view the damage. In order to correct this security issue we are proposing four different levels of protection for your review.

Option 1: (\$5,475.00) This would fix the holes in the fence, replace or straighten the existing poles and concertina wire to the top of the fence.

Option 2: (\$6,225.00) In addition to option 1 this would add a pedestrian gate for the records personnel to use for ingress and egress instead of having to open a large vehicle gate.

Option 3: (\$8,805.00) In addition to option 1 and 2 this would add privacy slats to the fence. In addition to making the fence much more difficult to climb it would help to conceal the items behind the fence and make the area look nicer. These slats provide 98% privacy rating. There is also the option to use slide-in privacy slats that have a 70% privacy rating and would reduce the cost by \$595.00. For the minimal cost reduction we do not believe this to be as attractive an option.

Option 4: (\$8,055.00) This would be options 1 and 3 combined. Option 2, the gate, would be eliminated.

The selection of one of these options will make the area behind the Police Records building much more secure and less susceptible to thefts.

FISCAL IMPACT:

This is a non-budgeted item and would require an allocation from the general fund in the amount of the option selected.

AGENDA STAFF REPORT

MEETING DATE: 9/3/2013

AGENDA SECTION: 8. B.

SUBJECT:

Supervisory Control and Data Acquisition (SCADA) Software and Installation Project

RECOMMENDATION:

That the Council, by motion, approve the purchase and installation of new SCADA software and appurtenances from Telstar Instruments of Hanford, CA for the not to exceed price of \$488,901.

BACKGROUND:

The City's existing SCADA system is about 25 years old and requires significant costs on an annual basis to incorporate any programming changes. The system does not adequately operate the City water system resulting in significant staff time to manually run the system. The SCADA system is also unreliable and limits the City Utility Department's abilities to incorporate efficiencies in the monitoring and operation of the water system.

In order to provide more efficient and reliable service to the water customers of the City of Hanford the SCADA system needs to be replaced and upgraded to provide more flexibility in monitoring and operating the City's water system.

The project includes installation of a new Wonderware SCADA system on a new master computer, replacement of PLC's at each well, tank, and sanitary sewer lift station, and system engineering and programming.

FISCAL IMPACT:

The FY 14 Water Capital Improvement Program budget provides \$500,000 for purchase and installation of a new SCADA system for the City's water and sanitary sewer systems. A copy of Budget Page 234 is attached for your review.

Dear Mike:

Telstar is pleased to offer our proposal to upgrade your existing SCADA system.

We are proposing to reuse as much of your existing instrumentation and controls hardware as possible to conserve resources. Wherever possible, we plan to repurpose existing enclosures, power supplies, wiring, radios, etc. A new SCADA PC and master radio/antenna will be installed at the Corporation Yard which will communicate with the new SCADA PLC equipment at the remote stations. The new SCADA system will run alongside your existing Bristol Babcock system allowing the wells, tanks and lift stations to be converted to the new Wonder Ware system one at a time, reducing down time and system interruptions.

We will install a new Wonderware runtime SCADA system that will replace the existing SCADA system. It will include a main SCADA computer, printer, UPS, phone dialer and Wonder Ware software. A digital telephonic dialer will be used for remote alarm reporting. The Master Station will support secure remote access via VPN to a city supplied laptops or other remote devices.

At each remote station we will replace the existing Bristol Babcock RTUs and keypads with new PLCs. We will reprogram the existing OIT units. The number of stations involved is: 21 lift stations, 14 well stations, 3 tank stations, and 1 Master Station to be located at the City Corporation Yard.

The budget also includes the following items:

- 1) New pressure transmitter at T4.
- 2) At Sanitary Lift Stations 65, 55, 64, 54, 67, 69 we will provide a new PLC/OIT/Radio/Power supply assembly inside of the existing MCC as required to make the lift stations operable.
- 3) As-built documentation
- 4) 16 hours training
- 5) System engineering, O&M manuals and drafting for record documents in AutoCAD

The budget excludes the following items:

- 6) New instrumentation except as noted herein

The price to perform this work as outlined is \$488,901.00

Note this price includes applicable Tax and Freight.

SCADA System Replacement / Update

Project Background:

This project will fund the replacement of the city's outdated SCADA program. This new program will incorporate more flexibility and allow the system to be run more efficiently through SCADA programming.

Existing Conditions:

The existing SCADA system is about 25 years old and requires significant cost to incorporate any programming change. The system is unreliable and limits the City Utility Department's abilities to incorporate efficiencies in the monitoring and operation of the water system.

Project Justification:

In order to provide more efficient and reliable service to the water customers of the City of Hanford the SCADA system needs to be replaced and upgraded to provide more flexibility in monitoring and operating the City's water system.

Fiscal Implications:

Funding for the Water System Security Upgrade Project will be allocated from water capital reserves.

AGENDA STAFF REPORT

MEETING DATE: 9/3/2013	AGENDA SECTION: 8. C.
-------------------------------	------------------------------

SUBJECT:

Discussion regarding Hanford Police Department logo on marked vehicles.

RECOMMENDATION:**BACKGROUND:**

This item was added to the agenda at the request of Vice Mayor Gary Pannett. The questions raised were to gain more information regarding the government code authorizing the Chief of Police to make changes to the vehicles, and the additional costs, if any for the change to the logo.

California Government Code Section 38630 (a) states "The Police Department of a city is under the control of the Chief of Police".

The decision to modify and or change the information on the Police Units has historically been at the direction of the Chief of Police as the equipment falls under the control of the Police Department.

There was no additional costs associated with the placement of the new logo design on the Police Units, the estimates showing costs are attached to this staff report.

FISCAL IMPACT:

There is no Fiscal Impact.
