Susie's-Monthly Parks and Rec report for October 2017

Monthly Parks and Recreation Report
Susie Chavez, Supervisor for Divisions 1719-Youth Services & 1720-Adult & Special Populations
October 27, 2017

Teen Center/Youth Activities (Division 1719 Youth Services)

1. **Back to School means after school enrichment programs for students. We had several classes for kids to school.**
2. **Fall Cheerleading began Wednesday, September 13 at 4:00 p.m. in the upstairs hall of the Senior/Veteran's Center with 26 enthusiastic girls. Competition Cheer coach Gina Lewis Young in back teaching the kids all the basics of cheerleading.**
3. **Kenpo Karate began the back to school season with 19 boys and girls of various ages. They are learning discipline and self-defense techniques.**
4. **Kids in the Kitchen began a three Tuesday after school session at the Hanford Teen Center on Tuesday, September 26th with 20 little boy and girl chefs. The students will learn basics of cooking and some culinary tricks of the trade. The best part is that they get to eat all creations. They had a great time and enjoyed sharing their food with the parents. Looking forward to week #2.**
5. **Toddler T-ball fall season 2017 began with a bang on Saturday, September 23rd with 72 ball players. This is the largest fall group registered since the program began five years ago. The spring season is typically large because everyone is thinking baseball. Fall is generally soccer, football or early basketball season. Hanford's base for baseball/softball is growing. Fall ball is typical for travel league teams. We have 6 teams for this fall season. Our spring 2017 season had 8 teams. Games will begin for the players on October 14 th at 9:00 a.m. and will be held at the Harris Ball field.**

Senior Center, Adult & Special Populations (Division 1720):

1. **Our Senior Barn Dance series is beginning to attract a following. We had 35 dancers at the August event and 33 seniors at the September event. Many of these seniors travel from town to town Monday thru Saturday to the various dances offered. Apparently the day to come to Hanford has always been Wednesday. Currently we are using the same band every month which is the Rollin West Band and off shoot of the old Mussel Slough Band. The seniors seem to like them a lot and they are having a great time at our monthly event.**
2. **Our Water Aerobics class finished Thursday September 28th. It will pick up again in May 2018. The seniors that registered for the class love it and instructor Cindy Rodrigues.**
3. **We had 20 ILP students visit the Teen Center Tuesday, September 12, 2017. They will be back October 3 and November 7 to play games and socialize.**

AGENDA
STAFF REPORT

MEETING DATE: 10/9/2017	**AGENDA SECTION:** 1

SUBJECT:
Street Tree Removal Request 284 E. Cortner

RECOMMENDATION:
That the Parks and Recreation Commission, by motion, make a recommendation on the street tree removal request.

BACKGROUND:
The City of Hanford, Streets Division, had a request by the resident at 284 E Cortner to repair the public sidewalk in the front of the property. Upon reviewing the area several option were proposed to the resident in order to save the large oak tree which was creating the problems with the sidewalk. One of the options was to move the sidewalk into the residents property, with the resident agreeing with the idea and later deciding against it. The second option was to remove the sidewalk, grind the roots and replace the sidewalk. A Certified Arborist was hired to review the health and overall condition of the tree and the damage that would occur to the tree with the grinding. The Arborist concluded that the grinding and removal of the concrete around the trunk of the tree would damage the tree fatally and would also make it structurally unsafe with the removal of the root system. Which brings us to option three, removal of the Oak tree, with the resident sharing in most of the removal costs.

FISCAL IMPACT:
Funding for the tree removal will be split by the resident and the Streets Division. With the resident paying for removal of the tree and concrete replacement and Streets paying for the concrete demo/rough grading.

ARBORIST REPORT: Level 1 Ground view, Non Invasive

Site Address: 284 E. Cortner
Hanford, CA 93230

Additional Information for Arborist Report:

This tree is in a poor location. It has outgrown its soil perimeter and is raising the adjacent concrete sidewalk, driveway and gutter. In addition the canopy has grown into or around 6 different overhead lines, including power and communication.

This tree is in relatively good condition. It has some typical galls, these are normal for this species of tree. It also has trumpet vine climbing the trunk and lower scaffold, this does not seem to be injuring the tree although it could be an issue with future vigor. There is a mailbox lag bolted to the tree on the street side and this too does not seem to be an issue as there is no bark damage or decay evident around this area.

The key factor is analyzing this tree is the request to remove the concrete around the bark skirt that has grown over the driveway and to remove high roots under the concrete area.

Once the concrete driveway is removed from the bark skirt at the base of the trunk (2nd Picture), the cambium area that will be exposed will be a location for decay to develop. That in addition to the root reduction will create an unsafe condition.

The targets in the area that will be at risk from the tree failing are the house at the above address, all of the overhead lines, anything on the sidewalk in the fall zone and anything in the street in the fall zone.

CONCLUSION:

If the roots need to be ground and cut, and the driveway needs to be removed for new concrete construction, then the tree should be removed before a hazardous situation develops.

Attachment: 284 E Cortner St (Street Tree Removal Request)

Overall view of tree showing overhead lines and general location.

From this view across the street the sidewalk heaving is obvious.
Notice the mailbox bolted the tree as well as the trumpet vine on the right side of the tree.

Attachment: 284 E Cortner St (Street Tree Removal Request)

This picture shows the bark skirt that has formed over the concrete driveway.
The area under the skirt and adjacent to the driveway will be a place for decay to occur, when the concrete is removed.

Notice the asphalt on the bottom left that is also creating an opportunity for decay.
