## Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 34.8 |
| HCM 7th LOS                  | C    |

## Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.

# HCM 7th Signalized Intersection Capacity Analysis

### Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 31.1 |
| HCM 7th LOS                  | C    |

### Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.

## Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 40.9 |
| HCM 7th LOS                  | D    |

## Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.

### Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 28.6 |
| HCM 7th LOS                  | C    |

### Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.

# HCM 7th Signalized Intersection Capacity Analysis

## 2: 12th Ave & SR 198 WB EB Ramps

## Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 53.5 |
| HCM 7th LOS                  | D    |

## Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.

### Intersection Summary

|                              |      |
|------------------------------|------|
| HCM 7th Control Delay, s/veh | 25.7 |
| HCM 7th LOS                  | C    |

### Notes

\* HCM 7th Edition computational engine requires equal clearance times for the phases crossing the barrier.
